Piano and Guitar Lessons

Unlocking Your Child's
Inner Carnegie Hall Prodigy!

Students are introduced to the basics of playing Piano + Guitar. Successfully learning to play with other classmates strengthens a musician's technique, skills, and musicality. While learning how to play an instrument may even help with fractions, higher mathematics, and SAT scores!

"My son, Max, has truly blossomed since starting his music class. As a kindergarten, he eagerly looks forward to every lesson, where he is learning both piano and guitar. The joy and enthusiasm he shows for music is heartwarming. His teacher has a wonderful way of making each lesson fun and engaging. Music class has become a highlight of his week, and we are so grateful for the positive impact it has had on his development."

Proud Kindergarten Parent
